The Erasmus Boosters Competition

We invite you to submit your ideas and best practices of how to make the Erasmus+ world more visible to the general public - neighbors, families, people in shopping malls, travelers, teachers, politicians, etc.!

We do not want to limit your creativity with restrictions - Whatever your idea is and how many resources may be needed - does not matter. The most important for us is the idea! So grab a cup of coffee, gather your colleagues, brainstorm, discuss and send your ideas to us!

Who can participate

Participation is open to NGOs and other organizations like companies, schools or universities, and individuals who have been participating or had experiences in the Erasmus+ programs or the European Solidarity Corps. Town Twinnings can also participate as they are close to the idea of the EU.

Participants agree with their submission that the legal process is excluded, which means that any recourse to courts of law is excluded. All participants agree that their data will be used for the competition, that their submitted ideas can be used in the Erasmus plus project by a third party, and that the winners will be announced publicly. A winner can be one person or one organization.
